## Take Off Heavy Duty Clinging Graffiti Remover

### What is Take Off?

Take Off is a heavy duty paint and graffiti remover designed to eliminate paint and graffiti from surfaces. This product is formulated with heavy duty solvents and detergents that will quickly remove multiple layers of latex and solvent based paints and graffiti. Take Off is great for use on porous and non-porous surfaces and is specially formulated to remove paint and shadows from unpainted masonry surfaces.

### BENEFITS:

- Great for use on solvent and water based paints.
- Removes shadows left behind by other graffiti removers.
- Works well on wet, dry, warm, and cold applications.
- Easily rinsed from surfaces.
- Great for use on many different types of masonry and coatings.
- Acts quickly allowing for more work in less time.
- Product meets VOC guidelines.

### Directions For Use:

Before using, make sure that the desired surface is cool to prevent early evaporation. Read SDS and test in a small inconspicuous area.

Prepare surface by scraping off all loose and peeling paint. Apply Take Off with a chemical resistant sprayer. Leave on surface until paint lifts or softens. Most applications will require a setting time of 20-30 minutes. Hot, direct sunlight will cause rapid evaporation of paint removing compound. Then high pressure rinse.

Reapplication and periodic agitation with a stiff bristle brush will improve penetration. Rinse with high pressure water or steam. Reapply if necessary.

Available Packages	
0221-55	55 Gallon Drum
0221-5	5 Gallon Plastic Pail
0221-4	4 Gallon Case

### Tech Specs:

Color.....Brown  
 Fragrance.....Solvent  
 Form.....Liquid  
 Flash Point.....>300°F  
 pH.....13.5  
 Specific Gravity.....1.12  
 Biodegradable.....100%  
 Shelf Life.....1 Year
