## Automatic Metal Safe Dish Detergent

Use: Food Service & Food Prep Areas

**What is MetalSafe?**

A heavy duty ware washing detergent designed for automatic dish washing machines where aluminum pots & pans are being cleaned. Will not pit or damage aluminum while being washed. This amazing liquid is tough on food soils while quickly rinsing from all surfaces. It has also been formulated to attack food grease and oils. This product is perfect for all water conditions.

**Benefits:**

- Phosphate free
- Prevents soil redeposition.
- Safe to use on aluminum.
- Designed for use in systems that require heavy duty detergents.
- Removes heavy greases and oils from dish surfaces.
- Offers high use yields.

**Directions For Use**

For institutional or commercial use. This product is not for manual or hand applications.

**DO NOT MIX WITH OTHER CHEMICALS**

Before use, read product label and Material Safety Data Sheet.

Find the appropriate pick up tube for the detergent on an automatic dish machine. Set the use rate at 10 ml per rack. Make sure that product is being fed to the machine.

Make sure to use proper protective clothing when applying handling this chemical.
