EcoRinse

Environmentally Preferred Drying Agent

Use: Drying Agent Cycle Manual and Automated

What is Eco Rinse?

A concentrated formula for use with automatic rinse injectors in dishwashing machines. Will prevent spotting of dishes, glassware and silverware when air dried after final rinse.

Water conditioning materials reduce surface tension to provide rapid draining and rinsing. Completely eliminates water droplets from forming on the surface, and speed air drying.

Directions:

HYDRAULIC AND ELECTRIC RINSE PUMPS: Insert feed tube into shipping container and adjust metering valve to 300 ppm. Upon running dishes through machine, check for drainage. Adjust until no water breaks appear on dishes.

NOTE: NOT FOR USE IN BOTTLE TYPE DISPLACEMENT INJECTORS WHERE PHASE SEPERATION IS NECESSARY.

Precautionary Statements (First Aid):

Eyes: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Remove contact lenses if present and easy to do. Get medical attention immediately if irritation persists.

Skin: Immediately flush skin with plenty of water for at least 15 minutes while removing any contaminated clothing and shoes. Discard contaminated clothing in a manner which limits further exposure, making sure to wash before reuse. Contact a physician immediately if irritation persists.

Ingestion: Do not induce vomiting. If victim is conscious and alert, give 2-4 cups of water. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Inhalation: Remove from exposure and move to fresh air immediately and keep comfortable for breathing. If breathing is difficult, give oxygen. If breathing has ceased apply artificial respiration using oxygen and a suitable mechanical device such as a bag and a mask. Get medical attention immediately if irritation persists.

Notes to Physician: Treat symptomatically and supportively. Consult a doctor and/or the nearest Poison Control Centre for all exposures.

"EPA/Safer Choice recognition does not constitute endorsement of these products. The Safer Choice logo signifies that the products' formulas, as Synthetic Labs has represented it to the EPA, contain ingredients with more positive human health and environmental characteristics than conventional products of the same type. EPA/Safer Choice relies solely on Synthetic Labs, its integrity and good faith, for information on the products' composition, ingredients and attributes. EPA/Safer Choice has not independently identified, that is, via chemical analysis, the ingredients in the products' formula, nor evaluated any of Synthetic Labs's non-ingredient claims. EPA/Safer Choice provides its evaluation only as to the products' human health and environmental characteristics, as specified in the Standard and based on currently available information and scientific understanding."
