Rust-X

Limestone Cleaner & Rust Remover

Use: Stone, Tile, and Concrete Restoration

WHAT IS RUST X?

Used by professionals to restore a new appearance to concrete surfaces and walkways, precast or poured aggregate, travertine and more. It contains no hydrofluoric acid, cleans without leaving yellow stains. This product will safely remove atmospheric dirt, mil-dew, rust, and many other surface stains without risk of bleaching or discoloration.

Color.....Clear
Fragrance.....Faint
Form.....Liquid
Phosphates.....None
FlashPoint.....212F
pH.....1-2
Specific Gravity.....1.07
Viscosity.....Thin
Foam.....Low
Biodegradable.....100%
Shelf Life.....1 Year

Benefits:

- Easy to use one step cleaner.
- Quickly removes hard water and rust stains from masonry.
- When used correctly, this product is safer to use and will be less damaging than other conventional acids.
- Restores concrete to its original look.
- Non-fuming formula.

Directions For Use:

For light cleaning and restoration, use Rust x with up 10 parts water to 1 part concentrate. Most applications will require a 2:1 dilution for proper cleaning. Apply product with a pump sprayer and allow to work until the stain has dissolved. For heavier stains a light brushing may be required to agitate the stain.
