DeFoam

Powdered Silicone Emulsion Defoamer

Use: Carpet & Traffic Lane Cleaning

What is DeFoam?

A waterbased emulsion formulated to quickly eliminate foam in liquid recovery systems, extraction machines, automatic shampoo equipment, and floor scrubbers. In certain types of extraction machines, a defoamer can be sprayed directly into the recovery hose as well as recovery tank. NOTE: Any residual of defoamer left in the carpet fibers will promote resoiling at a faster rate if product was applied directly on carpet.

Tech Specs:

Color.....White
 Fragrance.....Faint
 Form.....Powder
 Phosphates.....None
 FlashPoint.....212F
 pH.....NA
 Specific Gravity.....NA
 Viscosity.....Free Flowing
 Foam.....Moderate
 Biodegradable.....100%
 Shelf Life.....1 Year

Benefits:

- Breaks down and controls foam resulting from shampoo products.
- Designed for use in extraction machinery as well as wet/dry vacuums.

Directions For Use:

Pre-dissolve 1-2 ounces of DeFoam It in a small amount of cold water and add this solution to a holding tank or parts washing cabinet. Predilution is recommended for optimum performance. For heavy foam a stronger solution may be required. For serious foam problems. Do not add Powdered Defoamer to the cleaning solution. Can also be sprinkled directly on surface for dry foam and rotary applications.
