

# 207 Parts Wash

## Low Foaming Aluminum Safe Parts Wash

### WHAT IS 207 Parts Wash?

A powerful powdered product which encourages oil and grease to "split" to the top of the containment vessel after use. 207 is specially formulated to clean metal parts without the aid of hazardous solvents or other hazardous materials and when used as directed, will remove heavy grease and grime without harming metal or painted parts. Specially formulated to be low foaming for use in industrial mechanical spray wash machines.

### BENEFITS:

- Low foaming for use in rotary and mechanical spray wash machines.
- Will not harm metals or painted parts, or aluminum.
- Promotes splitting of oils for enhanced clean up.
- Contains special buffering ingredients to protect metals against corrosion.
- This product is 100% biodegradable for easy disposal.
- Designed specifically for the cleaning professional.
- Also available with virtually a foam free detergent system.

| Available Packages |                   |
|--------------------|-------------------|
| 2670-450           | 450lb Fiber Drum  |
| 2670-300           | 300lb Fiber Drum  |
| 2670-100           | 100lb Fiber Drum  |
| 2670-40            | 40lb Plastic Pail |

### DIRECTIONS FOR USE:

Before using, make sure that the desired surface is cool to prevent early evaporation. Read MSDS and test in a small inconspicuous area.

Soak tank: Use 1/2 to 1 pound of product per gallon of water, depending on quality of parts being cleaned.

Spray Cabinet: Use 1/4 to 1/2 pound of product per gallon of water, depending on quality of parts being cleaned.

Blow dry with compressed air.

### HMIS Rating:

- Health = 1
- Reactivity= 0
- Fire= 0
- Personal= B
