

Reorder No: 2676

# HS-50

## Heavy Duty Non Caustic Boil Out

Use: Food Service & Food Prep Areas

### What is HS-50?

A highly concentrated premium powder containing strong alkaline builders for the easy removal of carbonized residues, grease, oils, fats and soils from a variety of surfaces. Safe to use on steel, stainless steel, copper, concrete, and ceramic tile. A special high foaming additive can be easily added that allows the chemical to cling and do the work rather than the cleaning professional. Unlike other hood cleaners this product will cling longer to the surface allowing for safer cleaning and use.

### Benefits:

- Specially formulated for deep penetration of carbonized grease, oil, and soot.
- Product does most of the cleaning with little scrubbing required.
- Approved for use in USDA areas.
- Contains sequestering & chelating agents to prevent scale build up on coils when used on a regular basis.
- Adds the highest alkalinity and conditioners to any cleaning system.

### Directions For Use:

For institutional or commercial use.

Before use, read product label and Material Safety Data Sheet.

Product may be diluted with up to 1 lb of product per gallon of water. Most users will add 50lbs to a drum and use accordingly. Neglected areas may require stronger solutions. Apply and allow to dwell as long as possible

For Use In USDA Facilities.  
Meets USDA Guidelines  
For Manufacturing & Cleaning.

### Tech Specs:

Color.....White
