EW-2000

Deep Cleaning Alkaline Egg Wash Solution

Use: Food Service & Food Prep Areas

What is EW-2000?

A heavy duty alkaline cleaner for use in automatic egg washing machines. Eliminates the waste and performance-control problems typically experienced when using egg wash powders. Regular maintenance of the cleaning solution will drastically improve performance.

Benefits:

- Incredible non foaming formula.
- Highly concentrated for economical dilutions.
- Cleans and removes build up in one shot.
- Highly alkaline for long economical dilutions.

Directions For Use

For institutional or commercial use.

Maintain a concentration of 0.25 to 1.0 oz per gallon of water in wash tank as necessary to maintain a minimum pH of 10.5. The use dilution required depends on the degree of soil and amount of egg breakage in the machine. Maintain wash water at a temperature that is at least 20°F higher than the egg itself, but not less than of 90°F. Do not use wash water containing greater than 2 ppm of iron. Follow washing with an approved sanitizing rinse. The temperature of the sanitizing rinse should be equal to or higher than that of the wash solution. Pack eggs only after they are reasonably dry.

Do not use on aluminum, galvanized, or precious metal surfaces.

For Use In USDA Facilities.
Meets USDA Guidelines
For Manufacturing & Cleaning.

Tech Specs:

Color.....Clear
Fragrance.....Faint
Form.....Liquid
Phosphates.....None
FlashPoint.....212F
pH.....13.5
Specific Gravity.....1.13
Viscosity.....Thin
Foam.....None
Biodegradable.....100%
Shelf Life.....1 Year

Available Packages	
2891-275	275 Gallon Tote
2891-55	55 Gallon Plastic Drum
2891-30	30 Gallon Plastic Drum
2891-15	15 Gallon Plastic Drum
2891-5.25	2x2.5 Gallon Jugs
2891-5	5 Gallon Plastic Pail
2891-4	4 Gallon Case
