EasyMop

Enzymatic Floor Cleaner

Use: Food Service & Food Prep Areas

What is EasyMop?

A concentrated blend of enzymes and surfactants to help break down food, bacteria, and petroleum in food prep areas. This product can be applied before cleaning as a prespray or after cleaning to further remove the stains. Does not need to be activated or charged. The enzymes used will continue to break down the stains long after the cleaning is finished.

Benefits:

- Breaks down petroleum based stains.
- 100% Environmentally friendly
- Non Hazardous, non toxic.
- Safe to use in public areas.
- Will continue to work long after cleaning is finished.
- Will not leave behind any residue.
- Easy application.

Directions For Use

Before using, make sure that the desired surface is cool to prevent early evaporation. Read MSDS and test in a small inconspicuous area. For professional use only by trained personnel.

Versatile formulation allows for use in virtually any application type. For proper use, dilute product with up to 30 parts water. Can be used in manual or mechanical applications. If possible, allow solution to sit and react. See your local representative for specific use and dilution instructions.

For Use In USDA Facilities.
Meets USDA Guidelines
For Manufacturing & Cleaning.
