

HydroWash

Deep Cleaning Aluminum Safe Parts Wash

WHAT IS HYDRO WASH?

A new type of product which encourages oil and grease to "split" to the top of the containment vessel after use. HydroWash is specially formulated to clean metal parts without the aid of hazardous solvents or other hazardous materials and when used as directed, will remove heavy grease and grime without harming metal or painted parts. HydroWash has been specially formulated to be low foaming for use in industrial mechanical spray wash machines.

BENEFITS:

- Special heavy duty formula for deep penetration of grease and oils.
- Low foaming for use in rotary and mechanical spray wash machines.
- Will not harm metals or painted parts, or aluminum.
- Promotes splitting of oils for enhanced clean up.
- Contains special buffering ingredients to protect metals against corrosion.
- This product is 100% biodegradable for easy disposal.
- Designed specifically for the cleaning professional.
- Also available with virtually a foam free detergent system.

Available Packages	
6371-275	275 Gallon Tote
6371-55	55 Gallon Plastic Drum
6371-30	30 Gallon Plastic Drum
6371-15	15 Gallon Plastic Drum
6371-5	5 Gallon Plastic Pail
6371-4	4 Gallon Case

DIRECTIONS FOR USE:

Before using, make sure that the desired surface is cool to prevent early evaporation. Read MSDS and test in a small inconspicuous area.

Dilute with up to 20 parts water for cleaning armatures and generators.

Dilute with 20-40 parts water if using on aluminum parts. Use more concentrated for heavily soiled machine and automotive parts. Blow dry with compressed air.

HMIS Rating:

Health = 1
 Reactivity = 0
 Fire = 0
 Personal = B
