

HydroJet

Low Foaming Aluminum Safe Parts Wash

WHAT IS HYDROJET?

A new type of product which encourages oil and grease to "split" to the top of the containment vessel after use. HydroJet is specially formulated to clean metal parts without the aid of hazardous solvents or other hazardous materials and when used as directed, will remove heavy grease and grime without harming metal or painted parts. Hydrojet has been specially formulated to be low foaming for use in industrial mechanical spray wash machines.

BENEFITS:

- Special heavy duty formula for deep penetration of grease and oils.
- Low foaming for use in rotary and mechanical spray wash machines.
- Will not harm metals or painted parts, or aluminum.
- Promotes splitting of oils for enhanced clean up.
- Contains special buffering ingredients to protect metals against corrosion.
- This product is 100% biodegradable for easy disposal.
- Designed specifically for the cleaning professional.
- Also available with virtually a foam free detergent system.

Available Packages	
6372-275	275 Gallon Tote
6372-55	55 Gallon Plastic Drum
6372-30	30 Gallon Plastic Drum
6372-15	15 Gallon Plastic Drum
6372-5	5 Gallon Plastic Pail
6372-4	4 Gallon Case

DIRECTIONS FOR USE:

Before using, make sure that the desired surface is cool to prevent early evaporation. Read MSDS and test in a small inconspicuous area.

Dilute with up to 20 parts water for cleaning armatures and generators.

Dilute with 20-40 parts water if using on aluminum parts. Use more concentrated for heavily soiled machine and automotive parts. Blow dry with compressed air.

HMIS Rating:

Health = 1
Reactivity= 0
Fire= 0
Personal= B
