

Neutralize

Powerful Wood & Deck Brightener & Neutralizer

What is the eco wash System?

The eco wash is a revolutionary new cleaning process that uses new patented foaming technology to improve the cleaning process as well as decrease the levels of chemical required to do the same job. Each of these products have the foam building system built into them allowing for a much longer dwell time and improved effectiveness. Surfaces stay wet longer allowing the chemicals to do more work with less product.

What is Neutralize?

Neutralize cleans and brightens decks, fences and other weathered wood, helping restore the natural, like-new appearance. This product will remove UV damaged, gray wood fibers, ground-in dirt and stains from mildew and algae on decks, fences and other exterior wood structures. Also removes nail bleed and dark tannin bleed from tannin-rich Cedar, Redwood, Mahogany, Ipe and more. Great for use as a neutralizer after paint strippers have been applied.

Product Benefits:

- Powdered formula allows for easy and economical dilutions.
- Quickly removes rust & tannin stains.
- Will not damage wood surfaces.
- Fast acting and highly concentrated.
- 100% biodegradable.
- Will leave surfaces ready to paint or treat.
- Can be used as a neutralizer after stripping.
- Special non-hazardous formula.

Directions For Use:

Before using, make sure that the desired surface is cool to prevent early evaporation. Read MSDS and test in a small inconspicuous area.

Pre dilute product 4-8oz per gallon if applying straight to surface. Stronger solutions may be required if wood has not been maintained. If applying through an injection system, predilute product 1lb per gallon of water and then set ratios to 20-32:1 depending on how dirty the surfaces are. Warm water always works better but is not required. Rinse well after applying with fresh water. It is always recommended to cover expensive or exotic plants to eliminate possible contamination of the soil.

Tech Specs:

Color.....White
 Fragrance.....Faint
 Form.....Powder
 Phosphates.....None
 Flash Point.....212°F
 pH.(Solution).....2-3
 Specific Gravity.....NA
 Viscosity.....Thin
 Foam.....Moderate
 Biodegradable.....100%
 Shelf Life.....1 Year

Available Packages	
6423-450	450lb Drum
6423-300	300lb Drum
6423-40	40lb Pail
6423-25	25lb Pail
6423-32	4x8lb Case
