

Power Kleen

What is the eco wash System?

The eco wash is a revolutionary new cleaning process that uses new patented foaming technology to improve the cleaning process as well as decrease the levels of chemical required to do the same job. Each of these products have the foam building system built into them allowing for a much longer dwell time and improved effectiveness. Surfaces stay wet longer allowing the chemicals to do more work with less product.

What is Power Kleen?

A deep cleaning powdered biodegradable, nonflammable, non-corrosive detergent with no solvents in its formulation. This product will not etch glass nor will it harm plants. This product will easily carry dirt and other environmental debris from the surfaces being cleaned.

Product Benefits:

- Fast Acting.
- Fresh Scent
- Easy Rinsing.
- Contains no abrasives or harsh chemicals.
- 100% biodegradable.
- Highly concentrated for economical use.
- Doesn't leave behind a film.
- Phosphate Free.

Directions For Use:

Before using, make sure that the desired surface is cool to prevent early evaporation. Read MSDS and test in a small inconspicuous area.

Pre dilute product 2-6oz per gallon if applying straight to surface. If applying through an injection system, pre dilute product 1lb per gallon of water and then set ratios to 20-32:1 depending on how dirty the surfaces are. Warm water always works better but is not required. Rinse well after applying with fresh water. It is always recommended to cover expensive or exotic plants to eliminate possible contamination of the soil.

Tech Specs:

Color.....White
 Fragrance.....Citrus
 Form.....Powder
 Phosphates.....None
 Flash Point.....212°F
 pH.(Solution).....11-11.5
 Specific Gravity.....NA
 Viscosity.....Thin
 Foam.....Moderate
 Biodegradable.....100%
 Shelf Life.....1 Year

Available Packages	
6425-450	450lb Drum
6425-300	300lb Drum
