Environmentally Preferred Cleaner

What is the eco wash System?

The eco wash is a revolutionary new cleaning process that uses new patented foaming technology to improve the cleaning process as well as decrease the levels of chemical required to do the same job. Each of these products have the foam building system built into them allowing for a much longer dwell time and improved effectiveness. Surfaces stay wet longer allowing the chemicals to do more work with less product. Every ingredient formulated into these products is designed to be environmentally and user safe.

What is EPC?

A heavy duty environmentally formulated spray cleaner for removal of grease, heavy soils, dirt, carbon soot and all stubborn soils. Works on all surfaces from painted walls to masonry, brick, ceramic tile and stainless steel. Just spray and wipe to remove all soils. For mild cleaning spray may be diluted with water. Contains no butyls, acids, caustic alkaline, petroleum hydrocarbons, phosphates, or amines. This versatile product can be applied manually or through a high pressure applicator.

Product Benefits:

- Environmentally formulated to meet all "green" standards.
- Contains special penetrating agents for the removal of heavy soils.
- Removes grease, heavy soils, dirt, ink and all stubborn stains.
- Can handle the toughest cleaning and degreasing jobs.
- Highly versatile in usage and dilutions.
- Can be applied through sprayers, by hand, or through pressure machines.

Directions For Use:

- 1:1 for extra heavy duty cleaning environments
- 1:5-10 for heavy cleaning environments
- 1:10-20 for normal cleaning environments
- 1:10-20 for pressure washing applications

Tech Specs:

Color.....	Clear
Fragrance.....	Lemon
Form.....	Liquid
Phosphates.....	None
Flash Point.....	212°F
pH.....	7-8
Specific Gravity.....	1.03
Viscosity.....	Thin
Foam.....	High
Biodegradable.....	100%
Shelf Life.....	1 Year
