OUR COMMITMENT TO SERVICE

Patriot Chemical is a service division of Synthetic Labs that focuses on servicing of restaurants, cafes, schools, country clubs, hospitals as well as acute care. We offer a complete line of equipment and products.

Chemical manufacturing services work in concert to provide state of the art formulations, reliability, and consistency of product.

We give our clients and future clients all their answers quickly and accurately, therefore achieving our goal of excellence. We give you prompt and professional service. Our preventive methods eliminate problems before they can occur. Our skilled technicians offer suggestions and inform you about new technology that might help your establishment run more efficiently. Don't forget, we train on-site!

"Total Service" Concept

1. Maximize our performance by having total control and responsibility for results and quality.
2. Simplify "source of responsibility" for our clients.

As an example of our total responsibility for ware washing and laundry results: We provide dish machines and/or laundry injection equipment install, supply proper chemicals, train personnel on care of equipment and proper procedures, use of specialty cleaning products and mixing stations, submit service reports to management with information regarding water hardness, temperature, result and procedures.

If there is any type of equipment problem, it is our responsibility to rectify it. Our skilled service technicians are available 24 hours a day and 7 days a week.
