Equipment

LAUNDRY ON PREMISE

The Patriot Chemical laundry program utilizes the most reliable and state of the art chemical pumping system on the market today. This on-premise pump is an operator friendly system that provides unparalleled flexibility and the ability to tailor a system around your needs.

Key Features:

- Durable stainless steel
- Protected access codes
- Load counts for each formula
- Optional flush manifold to protect machines from direct chemical contact

WAREWASHING AUTOMATION

The Patriot Chemical warewashing system provides the ultimate in versatility and convenience. Having the choices of probe/probeless operation, high and low range concentration settings, rinse delay, rinse limit, dry detergent, liquid detergent, and sanitizer pumps makes it the system of choice.

Key Features:

- Durable splash resistant case
- Built in rack counter
- Probeless alarms for liquid or dry products
- Limited employee access to programs

DILUTION CONTROL CENTER

The Patriot Chemical dilution control center eliminates mixing mistakes by untrained personnel and reduces dispensing spills, waste and time consuming cleanups. Either fill spray bottles or utilize the hose dispenser to fill auto-scrubbers, buckets & extractors at 4 gallons per minute.

Key Features:

- Easy to use dial for dispensing
- Fill spray bottles or buckets
- Hose dispensing fills autoscrubbers buckets at 4 gpm.
- Key lock secures cabinet & prevents tampering
- Easy product identification

OUR COMMITMENT TO SERVICE

Patriot Chemical is a service division of Synthetic Labs that focuses on servicing of restaurants, cafes, schools, country clubs, hospitals as well as acute care. We offer a complete line of equipment and products.

Chemical manufacturing services work in concert to provide state of the art formulations, reliability, and consistency of product.

We give our clients and future clients all their answers quickly and accurately, therefore achieving our goal of excellence. We give you prompt and professional service. Our preventive methods eliminate problems before they can occur. Our skilled technicians offer suggestions and inform you about new technology that might help your establishment run more efficiently. Don't forget, we train on-site!

"Total Service" Concept

1. Maximize our performance by having total control and responsibility for results and quality.
2. Simplify "source of responsibility" for our clients.

As an example of our total responsibility for ware washing and laundry results: We provide dish machines and/or laundry injection equipment install, supply proper chemicals, train personnel on care of equipment and proper procedures, use of specialty cleaning products and mixing stations, submit service reports to management with information regarding water hardness, temperature, result and procedures.

If there is any type of equipment problem, it is our responsibility to rectify it. Our skilled service technicians are available 24 hours a day and 7 days a week.
